18 March 2013

Dear Parents

**Internet safety presentation helps children stay safe online**

Young people today are immersed in digital technologies. They use the internet and mobile phones to socialise, study, exchange ideas and play. While online activity has many benefits, there are also risks.

To help your children stay safe online, St Anthony’s School Greenmount is hosting a Cybersmart Outreach—Internet Safety Awareness presentation.

Designed for parents, teachers and students, this presentation is provided by the Australian Communications and Media Authority (the ACMA) as part of a national program of Cybersmart initiatives.

The Cybersmart Outreach—Internet Safety Awareness presentation is thorough and non-technical. It covers a range of issues including:

- The ways children use the internet and emerging technologies
- Potential risks for children online, such as cyberbullying, identity theft, inappropriate contact and exposure to inappropriate content
- Tips to help children stay safe online.

The presentation is conducted by an ACMA Cybersmart trainer and is free of charge.

St Anthony’s is committed to helping students develop appropriate behaviours when using digital technologies, both at school and home.

**The Cybersmart Outreach—Internet Safety Awareness presentation will be held on:**
**Date:** Wednesday 3 April 2013
**Location:** Library, St Anthony’s Greenmount, 96 Innamincka Road
**Time:** 7.00pm

To register your attendance, please fill in the slip below. Enrolments will also be accepted on the night.

Regards,

Salv Casilli
