

Term 2 Curriculum Newsletter Kindy Blue:

Welcome to Term 2, another educational and exciting term has been planned.

This term we will begin our parent roster, please ensure you follow all the health regulations about personal hygiene and sign in and out at the front office. Thank you.

Religious Education: **MJR Making Jesus Real**

This term we will be learning about the concepts outlined in the Making Jesus Real program. The children are developing understanding of and practising good manners, being kind with their actions and words, to greet people around them and to show respect by listening to others and waiting their turn to speak.

Pre - Writing: **NSW Print**

This Term the children will be practising how to form the pre – writing patterns of the Peggy Leggo program. This will help get them ready to be able to form letter shapes and then write their names.

Literacy: **A B C**

We will continue to focus on the initial sounds of letters. In Term 1 and this term we are covering the sound groups of SATPIN and CHREMD. Please support your child's learning at home by practising these sounds when reading stories and having discussions. We are revising syllables (body beats) and will also work on understanding rhyming words.

We will continue reading books, fiction and nonfiction to the children this term. Our area of study will be around fairy tales as well as seasons, weather, clouds and the lifecycle of a seed.

Our investigators and star helpers this term continue to develop oral language skills through their reflections, discussing **when** it happened, **who** was involved, **what** did they and **where** was it.

We are introducing the **Star Helper news** telling this term as well. We have been practising in class about how they will tell **what** it is, **where** did they get it and **why** they like it.

Numeracy: **1 2 3 4 5 6 7 8 9 10**

In numeracy we will be practising counting 1 to 1 correspondence and recognising numerals to 10 and beyond. This term we will be learning about the language of measuring, length, height, mass. The children have begun learning about patterns as well. The numeracy table and shelf have activities to encourage the children to practise their counting skills and to learn the numerals to 10 and 20.

Science: **life cycles, seasons, weather**

This term we will be learning some really interesting facts about the different kinds of clouds and how they look. Also, we learn the water cycle and the lifecycle of a bean seed and how plants grow over the 4 seasons. It is a very busy but exciting term, let's hope we can get through all of the learning.

Other:

School photos

They will be on Monday the 3rd of May, make sure you have returned your order forms.

Pupil Free days

There will be a number of Pupil Free days this term. They are on the school calendar for Friday 4th of June and Monday 7th June WA Day.

I will keep you informed regularly on Seesaw.

We look forward to an enjoyable and busy term.

If you have concerns or questions, then please contact me through the Seesaw app. Thank you.

*We look forward to a great term,
Jenny Tucknott, Samantha Garcia and Peta Yukich.
